EDUCATION

Northeastern University – D'Amore-McKim School of Business

Boston, MA

Bachelor of Science in Business Administration

September 2023 – May 2027

Concentrations: Management Information Systems, Business Analytics **Minor:** Economics

Professional Organizations: Management Leadership for Tomorrow Career Prep Fellow, Colorstack, NSBE, NABA

Relevant Coursework: Data Mining, Data Wrangling, Information Visualization, Data Modeling for Business, Calculus I, Statistics

Awards & Achievements: 2025 MLT Consulting Case Competition Finalist, 2023 Junior Achievement of Western Mass 18 under 18

WORK EXPERIENCE

IBM | *Customer Success Engineer Co-Op* | Chicago, IL

September 2025 – Current

- Supporting enterprise customers in adopting and troubleshooting IBM software solutions, partnering with product and technical teams to resolve customer questions and escalations
- Building foundational expertise in IBM's customer success workflows and tools while onboarding into a cross-functional support role spanning technical and customer-facing responsibilities

Liberty Mutual Insurance | *Data Analyst Intern* | Boston, MA

May 2025 – July 2026

- Engineered an AI-powered knowledge agent with automated Confluence API integration, centralizing enterprise knowledge on the Telephony system access and reducing information retrieval time by more than 50% for internal stakeholders
- Performed large-scale analysis of millions of telephony platform records to identify actionable insights and support data-driven business strategy

MFS Investment Management | *Investment Operations Business Analyst Co-Op* | Boston, MA

July 2025 – December 2025

- Developed and executed regression test cases to validate Round Robin data integrity and ensure accurate data flow between databases and the UI, alongside designing ETL workflows for financial data processing (ex, Money Market Sweep pipeline, which supports CIT fund operations)
- Led bi-weekly cross-functional issue resolution, collaborating with Eagle developers and stakeholders to resolve 30+ data defects and update system specifications while strengthening expertise in Eagle, CRIMS, SQL, and Agile

MassMutual | *Operations Project Management Office Intern* | Springfield, MA

May 2025 – July 2025

- Built an operational milestone tracking database using Confluence for 40+ active projects to identify bottlenecks across the top 10 Strategic Initiatives; created an interactive roadmap that enhanced resource reallocation and data analysis
- Developed an automated data pipeline to extract stakeholder responses from Microsoft Forms, process the data, and generate real-time dashboards that depicted critical KPIs for the Ops Project Management Office, improving operational efficiency by providing insight into developing metrics to track budget adherence, resource management, and on-time milestone completion rates

PROJECTS

Credit Score Classification Model | *Python (Pandas, NumPy, Scikit-Learn, SciPy), Excel*

October 2025 – November 2025

- Built a modular ML pipeline and custom preprocessing classes for standardized transformations for 98.8K cleaned customer records over 8 months, achieving 80% accuracy and 0.77 F1-macro scores
- Developed and evaluated multiple ML algorithms (Random Forest, Logistic Regression, Decision Tree) using 5-fold stratified cross-validation to ensure fair, unbiased evaluation across credit classes, then engineered high-signal financial features such as debt-to-income ratio, which improved model performance and highlighted key drivers of creditworthiness

Netflix Consumer Data Analysis | *Python (Pandas, NumPy, Scikit-Learn), Excel*

January 2025 – April 2025

- Designed and implemented an ETL pipeline that standardized over 1,000 unique titles and metadata from multiple web-scraped Netflix datasets, resolving inconsistencies and enabling accurate sourcing of content data
- Leveraged data analysis techniques and libraries to uncover correlations between content type, release year, and audience engagement, supporting data-driven recommendations for media investment strategies
- Developed recommendations for content investment strategy based on five k-means consumer clusters of engagement data

LEADERSHIP & ACTIVITIES

Northeastern Black Business Student Association | *Lead Events Director* | Boston, MA

April 2024 – Present

- Serve as a peer mentor to advocate for upperclassman members, bridging communication between leadership and the broader membership

Huntington News | *Staff Data Visualization Analyst* | Boston, MA

March 2026 - Present

- Create interactive data visualizations for Northeastern's Huntington News using Flourish, translating real editorial content into engaging, publishable graphics for over 30,000 students

Microsoft Excel Student Ambassador Program | *Event Director* | Hybrid

January 2025 – May 2025

- Developed and delivered workshops on advanced Excel functions and features (XLOOKUP, INDEX MATCH, Pivot Tables, etc.) to 40+ attendees, providing personal tutoring to enhance participants' data analysis capabilities significantly
- Designed visually compelling slide decks that guided attendees in applying advanced analytical techniques

SKILLS AND INTERESTS

- **Technical Skills:** Python, SQL, Tableau, Power BI, Excel, Flourish, Snowflake; **Management Tools:** Confluence, Jira, Slack
- **Interests:** Celtics, Ghanaian Culture, Music Production, Avatar: The Last Airbender, Simulation Games
- **Extracurriculars:** Ghanaian Student Organization Community Chair, Apostolic Church International Instrumentalist
